Experience sharing

「你想去哪一所大學、讀什麼科系？」高三畢業後，大家都開始為升學煩惱，我也不例外。因為喜歡生物，所以我選擇了生物科技這一領域。我懷揣著對大學生活的各種憧憬踏入了校區，而成大也沒有辜負我的期望。從高中起便活躍於社團的我，在大二那年擔任了成大馬來西亞同學會的總幹事，在一次次活動籌辦中創造回憶，學習如何與團隊合作、如何與自己相處。除社團活動以外，成大為學生提供了豐富的資源，讓我們可以發揮所長，而不是只局限於課堂上的內容。在成大求學的這兩年，我認識了很多異鄉的朋友，留下了許多歡笑，也因接觸了不同的思想而成長。總的來說，我覺得成大是一個讓你發現自己有無限可能的地方。

I choose Taiwan as my choice because I want to pursue the major I am interested in and improve my Mandarin language. At that time, I didn't spend so much time and directly choose NCKU as my first choice because the information I received from my senior stated that this university was the best in engineering. I spent my bachelor's and master's years in this university. When I wanted to pursue my master's degree, I didn't feel I needed to change the university if I still wanted to pursue my master's degree in Taiwan. This is why I continue to enroll in NCKU. I spent the 6 years of my university life here, and I don't regret anything. I learned so much and achieved so much here. I find a way to conquer the challenges which I think are important experiences and an opportunity for me. Now, I am getting ready for the next challenges I will face in the next chapter of my life. I get the opportunity to work in Taiwan also thanks to this university. Because I graduated from NCKU, the chances I got the job that I want are higher especially related to the engineering field. All the hardships and the labor experiences I got shaped me into what I am today, and I don't regret my decision to be a student here.

成功大學提供多元化的課程與學習計劃，大一懵懵懂懂考進法律系，到大二雙主修歷史系。雙主修可以讓我同時在兩個方向全面發展，為理想職業鋪路。成大擁有豐富學習資源與資深博學的教育人員，使我日夜在學業中埋頭苦幹同時得到最合適的幫助，推動我繼續邁步向前。除此之外，成大也提供不同機會讓同學探索技能。我曾經擔任系學會秘書長、港澳會幹部以及僑聯迎新副招。這些機會不只提升我的領導和組織能力，更讓我認識其他地區僑生朋友們，建立深厚的友情。學校也提供工讀機會，得以減輕經濟負擔，並兼顧學費問題，無憂無慮的在成大享受美好大學時光。
